P R E F A C E.

S. MAW, SON & THOMPSON, in submitting to the attention of the Trade a new and improved Edition of the Book of Illustrations to their Quarterly Price-Current, tender their sincere thanks for the liberal support hitherto received, and earnestly solicit a continuance of same.

Having had so many proofs of the value of Illustrations in former Catalogues, and received such flattering acknowledgments of their utility, S. M., S. & T. have increased their number considerably in the present issue, and spared no expense to render the Work as complete as possible.
